Introduction

The OPCS-4 Classification of Interventions and Procedures (OPCS-4) is an NHS fundamental information standard published under section 250 of the Health and Social Care Act 2012 ([Ref DCB0084](#)). OPCS-4 is updated every three years to reflect current NHS clinical practice to support aggregate data for statistical purposes and reimbursement.

This summary of core changes to OPCS-4.9 to produce OPCS-4.10 was published for consultation between 21 June to 29 July 2022.

Following consultation and subject to approval by the Data Alliance Partnership Board (DAPB), the OPCS-4.10 Information Standard Notice and OPCS-4.10 Data files will be published in November 2022 in readiness for NHS implementation on 1 April 2023.

Background

OPCS-4 is a statistical classification for clinical coding of hospital interventions and procedures undertaken by the NHS. The classification is mandatory for use by healthcare providers to support various forms of data collections for secondary uses, e.g. it is mandatory for the Admitted Patient Care Commissioning Data Sets (CDS). The requirements for data sets and related definitions are specified in the NHS Data Model and Dictionary.

<http://www.datadictionary.nhs.uk/>

In agreement with the Department of Health, the OPCS-4 classification is updated every three years to reflect current NHS clinical practice through the addition of new content as necessary to support aggregate data for statistical purposes and reimbursement.

Key classification characteristics are retained to maintain consistency and comparability across OPCS-4 versions and statistical data.

Requests for change

NHS Digital receives OPCS-4 requests for change via the Requests Submission Portal. Requests came from a wide range of customers, users and stakeholders, including the National Casemix Office and the National Casemix Office clinical Expert Working Groups, the National Institute of Clinical Excellence (NICE), the Getting it Right First Time (GIRFT) programme, the Department of Health and Social Care (DHSC), clinicians and clinical coding professionals.

Areas affected by change

Core changes made to OPCS-4.9 to produce OPCS-4.10 have been made in the following areas:

Volume I- Tabular List:

- Codes and descriptions at three-character categories and four-character subcategories
- Three-character category and four-character subcategory Notes, Inclusions and Exclusions

Volume II - Alphabetical Index:

- Section I Alphabetical Index of Interventions and Surgical Procedures
- Section II Alphabetical Index of Surgical Eponyms
- Section III Alphabetical Index of Surgical Abbreviations.

This summary does not reflect changes made to the Tabular List introductory text, Tabular List of Three-Character Categories section or Chemotherapy Regimens list.

This information must not be used to assign codes ahead of implementation or to annotate existing OPCS-4.9 books.

Number of changes

Change Type	Number	Total	Grand Total
New three-character category code	34	397	895
New four-character subcategory code	236		
Retired (four-character subcategory)	2		
Changed three-character category code description	2		
Changed four-character subcategory code description	44		
Change to three-character category involving change to note only (new, deleted or changed includes, excludes and notes)	44		
Change to four-character subcategory code involving change to note only (new, deleted or changed includes, excludes and notes)	35		
New Index entry	439	498	
Deleted Index entry	59		

Representation of core changes

In this document, changes are represented as follows:

- New code(s) and description are underlined
- Content in OPCS-4.9 that has been deleted is shown by a strike through
- Content in OPCS-4.10 that has been added is shown by an underline.

The absence of a chapter heading in Volume I - Tabular List or a letter, e.g. Q or W, in Volume II - Alphabetical Index indicates there are no changes within that section.

Retirement of codes / change in description

Coding professionals, analysts and system and software suppliers are asked to note the changes, including retirements of codes listed below. Retired codes have been removed from the Metadata file so that they are not perpetuated in OPCS-4.10 implementations. The OPCS-4.10 Table of Coding Equivalences provides guidance on mapping the new codes to the retired codes.

Replacement of 'semilunar cartilage' with 'meniscus'

Categories **W70 Open operations on semilunar cartilage** and **W82 Therapeutic endoscopic operations on semilunar cartilage** and the codes within them used the outdated term 'semilunar cartilage'. However, clinicians now use the preferred term of 'meniscus' when referring to 'semilunar cartilage' of the knee. Therefore, to reflect current clinical practice and to ensure these codes are only used for procedures on the knee the term 'semilunar cartilage' has been replaced by 'meniscus of knee joint' in the following descriptions:

W70	Open operations on semilunar cartilage<u>meniscus of knee joint</u> <i>Includes: Operations on semilunar cartilage NEC <u>Operations on meniscus of knee joint NEC</u></i>
W70.1	Open total excision of semilunar cartilage<u>meniscus of knee joint</u>
W70.2	Open excision of semilunar cartilage<u>meniscus of knee joint</u> NEC <i>Includes: Open excision of lesion of semilunar cartilage <u>Open excision of lesion of meniscus of knee joint</u></i>
W70.3	Open repair of semilunar cartilage<u>meniscus of knee joint</u>
W70.4	Open total replacement of semilunar cartilage<u>meniscus of knee joint</u>
W70.5	Open partial replacement of semilunar cartilage<u>meniscus of knee joint</u>
W70.8	Other specified open operations on semilunar cartilage<u>meniscus of knee joint</u>
W70.9	Unspecified open operations on semilunar cartilage<u>meniscus of knee joint</u>
W82	Therapeutic endoscopic operations on semilunar cartilage<u>meniscus of knee joint</u>
W82.1	Endoscopic total excision of semilunar cartilage<u>meniscus of knee joint</u>
W82.2	Endoscopic resection of semilunar cartilage<u>meniscus of knee joint</u> NEC
W82.3	Endoscopic repair of semilunar cartilage<u>meniscus of knee joint</u>
W82.4	Endoscopic total replacement of semilunar cartilage<u>meniscus of knee joint</u>
W82.5	Endoscopic partial replacement of semilunar cartilage<u>meniscus of knee joint</u>
W82.8	Other specified therapeutic endoscopic operations on semilunar cartilage<u>meniscus of knee joint</u>
W82.9	Unspecified therapeutic endoscopic operations on semilunar cartilage<u>meniscus of knee joint</u>

Repair of hymen

Following a review by the Department of Health and Social Care (DHSC) and the Home Office, the practice of hymen repair/hymenoplasty has been banned in all settings.

Therefore, as this is now an obsolete procedure, code **P15.3 Repair of hymen** has been retired from the classification:

P15.3 ~~Repair of hymen~~ Code retired - refer to introduction

Wireless capsule endoscopy

Wireless capsule endoscopy, which includes capsule endoscopy, was classified as a Diagnostic endoscopic examination of ileum (**G80.-**) at OPCS-4.9 code **G80.2 Wireless capsule endoscopy**. However, wireless capsule endoscopy consists of a camera, a light source and a wireless circuit for the acquisition and transmission of signals. The patient swallows the capsule, which transmits images as it moves through the gastrointestinal tract. A diagnostic endoscopic examination, or endoscopy, is the passage of a thin long tube with a camera on the end into the body through a natural opening such as the mouth.

These are distinctly different procedures. Therefore, wireless capsule endoscopy should not be classified as an endoscopic examination and should not be classified as a procedure that is specific to the ileum, as the capsule passes through the whole of the digestive tract.

In order to correctly classify wireless capsule endoscopy, **G80.2** has been retired and a new code has been created in category **U17 Diagnostic imaging of the digestive tract**:

G80.2 ~~Wireless capsule endoscopy~~ Code retired - refer to introduction
Includes: ~~Capsule endoscopy NEG~~

U17.7 Wireless capsule endoscopy of digestive tract
Includes: Capsule endoscopy

Denture and obturator procedures

Denture and obturator procedures were classified at the same codes within OPCS-4.9 category **F63 Creation of dental prosthesis**; however they are completely different prostheses which should not be grouped together. A denture is a removable replacement for missing teeth and surrounding tissues and an obturator is something that closes or blocks up an opening and is often needed after major facial surgery such as maxillectomy.

Therefore, denture and obturator procedures have been separated out into different categories:

F63.1 ~~Creation of impression for denture or obturator~~
F63.2 ~~Fitting of denture or obturator~~
F63.3 ~~Adjustment of denture or obturator~~
F63.4 ~~Repair of denture or obturator~~

F64.1 Creation of impression for obturator
F64.2 Fitting of obturator
F64.3 Adjustment of obturator
F64.4 Repair of obturator

Chapter A NERVOUS SYSTEM

A62 ~~Microsurgical repair of peripheral nerve~~
Note: Principal category, extended at A71

A69.4 Revision of cubital tunnel release

- A69.9** **Unspecified revision of release of peripheral nerve**
Includes: Revision of neurolysis of peripheral nerve NEC
- A71** **Other microsurgical repair of peripheral nerve**
 Note: Principal A62
- A71.1** **Primary microsurgical transfer of peripheral nerve**
A71.2 **Secondary microsurgical transfer of peripheral nerve**
A71.3 **Microsurgical transfer of multiple peripheral nerves**
A71.4 **Microsurgical transfer of peripheral nerve NEC**
A71.8 **Other specified other microsurgical repair of peripheral nerve**
A71.9 **Unspecified other microsurgical repair of peripheral nerve**
- A73.6** **Transfer and reimplantation of peripheral nerve NEC**
Excludes: Microsurgical transfer of peripheral nerve (A71)

Chapter B ENDOCRINE SYSTEM AND BREAST

- B29** **Reconstruction of breast**
Excludes: Reconstruction of breast using flap of thigh (B42)
 Reconstruction of breast using flap of chest wall (B44)
 Note: Principal category, extended at B43
- B30** **Prosthesis for breast**
 Note: Principal category, extended at B45
- B30.1** **Insertion of prosthesis for breast NEC**
Includes: Insertion of breast prosthesis into sub-pectoral space
- B30.2** **Revision of prosthesis for breast NEC**
B30.3 **Removal of prosthesis for breast NEC**
Includes: Removal of breast prosthesis from sub-pectoral space
- B30.4** **Renewal of prosthesis for breast NEC**
Includes: Renewal of breast prosthesis in sub-pectoral space
- B30.5** **Insertion of breast prosthesis into pre-pectoral space**
B30.6 **Renewal of breast prosthesis in pre-pectoral space**
B30.7 **Removal of breast prosthesis from pre-pectoral space**
- B39.3** **Reconstruction of breast using free deep inferior epigastric perforator flap NEC**
Includes: Reconstruction of breast using unipedicled free deep inferior epigastric perforator flap
- B39.6** **Reconstruction of breast using free superficial inferior epigastric artery flap**
B39.7 **Reconstruction of breast using bipedicled free deep inferior epigastric perforator flap**
Includes: Reconstruction of breast using double pedicled free deep inferior epigastric perforator flap
- B42** **Reconstruction of breast using flap of thigh**
 Note: Use a supplementary code for insertion of prosthesis for breast (B30.1) or skin expander (S48)
 Use a supplementary code for attention to skin expander (S49)
- B42.1** **Reconstruction of breast using free myocutaneous gracilis flap**
Includes: Reconstruction of breast using free transverse upper gracilis flap
 Reconstruction of breast using free diagonal upper gracilis flap
 Reconstruction of breast using free L-shaped upper gracilis flap
- B42.2** **Reconstruction of breast using free profunda artery perforator flap**
B42.8 **Other specified reconstruction of breast using flap of thigh**

- B42.9** **Unspecified reconstruction of breast using flap of thigh**
- B43** **Other reconstruction of breast**
Excludes: Reconstruction of breast using flap of skin of buttock (B38)
 Reconstruction of breast using abdominal flap (B39)
 Reconstruction of breast using flap of thigh (B42)
 Reconstruction of breast using flap of chest wall (B44)
Note: **Principal B29**
 Use a supplementary code for insertion of prosthesis for breast (B30.1)
 or skin expander (S48)
 Use a supplementary code for attention to skin expander (S49)
- B43.1** **Reconstruction of breast using free lumbar artery perforator flap**
- B43.8** **Other specified other reconstruction of breast**
- B43.9** **Unspecified other reconstruction of breast**
- B44** **Reconstruction of breast using flap of chest wall**
Note: Use a supplementary code for insertion of prosthesis for breast (B30.1)
 or skin expander (S48)
 Use a supplementary code for attention to skin expander (S49)
- B44.1** **Reconstruction of breast using pedicled intercostal artery perforator flap**
Includes: Reconstruction of breast using pedicled lateral intercostal artery perforator flap
 Reconstruction of breast using pedicled anterior intercostal artery perforator flap
 Reconstruction of breast using pedicled medial intercostal artery perforator flap
- B44.2** **Reconstruction of breast using pedicled thoracodorsal artery perforator flap**
- B44.3** **Reconstruction of breast using pedicled thoracic artery perforator flap**
Includes: Reconstruction of breast using pedicled long thoracic artery perforator flap
- B44.8** **Other specified reconstruction of breast using flap of chest wall**
- B44.9** **Unspecified reconstruction of breast using flap of chest wall**
- B45** **Other prosthesis for breast**
Excludes: Augmentation mammoplasty (B31.2)
Note: **Principal B30**
- B45.1** **Replacement of sub-pectoral space prosthesis with pre-pectoral space prosthesis**
- B45.2** **Replacement of pre-pectoral space prosthesis with sub-pectoral space prosthesis**
- B45.8** **Other specified other prosthesis for breast**
- B45.9** **Unspecified other prosthesis for breast**

Chapter D EAR

- D01.3** **Excision of preauricular abnormality**
Includes: Excision of congenital preauricular lesion
Excludes: Excision of preauricular lesion NEC (D02.1)
- D02.1** **Excision of lesion of external ear**
Includes: Excision of preauricular lesion NEC
Excludes: Excision of congenital preauricular abnormality (D01.3)
 Excision of congenital preauricular lesion (D01.3)
- D13** **Attachment of bone anchored hearing prosthesis**

Includes: Attachment of bone conducting hearing implant

D14.4 Combined approach tympanoplasty

Includes: Combined approach tympanoplasty using graft

Chapter E RESPIRATORY TRACT

E20.1 Total adenoidectomy

*Note: Use as a secondary code when associated with excision of tonsil (F34,
F35)*

E20.4 Suction diathermy adenoidectomy

*Note: Use as a secondary code when associated with excision of tonsil (F34,
F35)*

E29 Excision of larynx

*Includes: Subglottis
Supraglottis*

E30 Open extirpation of lesion of larynx

*Includes: Subglottis
Supraglottis*

E31 Reconstruction of larynx

*Includes: Subglottis
Supraglottis*

E32 Therapeutic endoscopic operations on larynx

*Includes: Epiglottis
Glottis
Subglottis
Supraglottis*

***Note: Principal E35**
It is not necessary to code additionally any mention of diagnostic endoscopic examination of larynx (E36.9) or diagnostic microendoscopic examination of larynx (E37.9)*

E32.1 Endoscopic cricoid split

*Includes: Endoscopic cricoid split with balloon dilation
Anterior Cricoid
Posterior Cricoid*

E32.8 Other specified therapeutic endoscopic operations on larynx

E32.9 Unspecified therapeutic endoscopic operations on larynx

E33 Other open operations on larynx

*Includes: Subglottis
Supraglottis*

E33.7 Cricoid split

*Includes: Anterior Cricoid
Posterior Cricoid*

E34 Microtherapeutic endoscopic operations on larynx

*Includes: Subglottis
Supraglottis*

E35 Other therapeutic endoscopic operations on larynx

Includes: Subglottis

Supraglottis

Note: Principal category, extended at E32

E36 Diagnostic endoscopic examination of larynx

Includes: Subglottis
Supraglottis

E37 Diagnostic microendoscopic examination of larynx

Includes: Subglottis
Supraglottis

E38 Other operations on larynx

Includes: Subglottis
Supraglottis

E65.9 Unspecified diagnostic endoscopic examination of nasal cavity

Includes: ~~Nasendoscopy NEC~~

E85 Ventilation support

Note: Use a supplementary code for concurrent prone positioning of the patient during ventilation (O48.1)

E85.6 Continuous positive airway pressure

Excludes: High flow nasal oxygen therapy (X52.2)

E94.3 Bronchial reactivity

Includes: Bronchial reactivity to histamine or ~~metacholine~~methacholine

Chapter F MOUTH

F09 Surgical removal of tooth

Note: Use a supplementary code for concurrent preservation of alveolar ridge using graft (F19.2)

F10 Simple extraction of tooth

Note: Use a supplementary code for concurrent preservation of alveolar ridge using graft (F19.2)

F11 Preprosthetic oral surgery

Note: Principal category, extended at F19

F11.2 Augmentation of alveolar ridge using ~~autobone graft~~autograft of bone

Includes: Delayed augmentation of alveolar ridge using autograft of bone following previous surgical removal or extraction of tooth

Excludes: Preservation of alveolar ridge using graft (F19.2)

F11.3 Augmentation of alveolar ridge NEC

Includes: Delayed augmentation of alveolar ridge following previous surgical removal or extraction of tooth NEC

Excludes: Preservation of alveolar ridge using graft (F19.2)

F11.7 Endosseous implantation into zygoma

- F12.3** **Closure of apex of tooth**
Includes: Apexification of tooth
Apexogenesis of tooth
Induction of calcific barrier at apex of tooth
- F14** **Orthodontic operations**
Excludes: Functional orthodontic operations (F65)
Post-orthodontic operations (F66)
- F14.1** **Insertion of fixed orthodontic appliance NEC**
Includes: Insertion of fixed orthodontic brace
Insertion of lingual orthodontic brace or appliance
- F14.2** **Insertion of movable orthodontic appliance NEC**
Includes: Insertion of movable orthodontic brace
Insertion of orthodontic aligner
- F14.4** **Removal of orthodontic appliance NEC**
Includes: Removal of orthodontic brace
- F15.5** **Adjustment of orthodontic deviceappliance NEC**
Includes: Adjustment of orthodontic brace
- F16** **Other operations on tooth**
Note: Principal category, extended at F21
- F16.6** **Application of topical fluoride NEC**
- F19** **Other preprosthetic oral surgery**
Excludes: Reduction of fracture of alveolus (V15.1)
Note: Principal F11
- F19.1** **Removal of dental implant**
- F19.2** **Preservation of alveolar ridge using graft**
Excludes: Augmentation of alveolar ridge (F11.2, F11.3)

Includes: Venorrhaphy NEC
- L94.6** **Percutaneous transluminal venoplasty NEC**
- L94.7** **Percutaneous transluminal balloon angioplasty of vein NEC**
Includes: Percutaneous transluminal cutting balloon angioplasty of vein NEC

Chapter M URINARY

- M44.5** **Endoscopic removal of mesh from bladder**
Includes: Endoscopic removal of eroded or exposed mesh from bladder
- M51.3** **Insertion of autologous sling**
Includes: Insertion of autologous fascial sling
Sling on a string
Native tissue sling
Excludes: Suprapubic sling operation NEC (M52.1)
Note: Use a subsidiary code to identify harvest of fascia (Y60)

- M52.1** **Suprapubic sling operation NEC**
Excludes: Insertion of autologous sling (M51.3)
- M54.4** **Attention to artificial urinary sphincter in outlet of female bladder**
- M56.4** **Endoscopic removal of inert substance from outlet of female bladder**
- M57.5** **Division of tension-free vaginal tape**
M57.6 **Division of transobturator tape**
M57.7 **Division of vaginal tape NEC**
- M58.3** **Removal of inert substance from outlet of female bladder**
Excludes: Endoscopic removal of inert substance from outlet of female bladder (M56.4)
- M60.4** **Attention to artificial urinary sphincter in outlet of male bladder**
M60.5 **Total removal of transobturator sling**
M60.6 **Partial removal of transobturator sling**
- M66.4** **Endoscopic removal of inert substance from outlet of male bladder**
- M76** **Therapeutic endoscopic operations on urethra**
Note: Principal category, extended at M78
- M78** **Other therapeutic endoscopic operations on urethra**
Note: Principal M76
It is not necessary to code additionally any mention of examination of urethra (M77.9)
- M78.1** **Endoscopic removal of mesh from urethra**
Includes: Endoscopic removal of eroded or exposed mesh from urethra
- M78.8** **Other specified other therapeutic endoscopic operations on urethra**
M78.9 **Unspecified other therapeutic endoscopic operations on urethra**

Chapter P LOWER FEMALE GENITAL TRACT

- P15.3** **Repair of hymen**~~Code retired - refer to introduction~~
- P29.6** **Oversewing of mesh in vagina**
Includes: Oversewing of eroded or exposed mesh in vagina
Oversewing of eroded or exposed tape in vagina
- P30.3** **Plication of mesh previously inserted for suspension of vaginal vault**
Includes: Plication of mesh previously inserted for suspension of vagina NEC

Chapter Q UPPER FEMALE GENITAL TRACT

- Q05.2** **Dilation of cervix uteri NEC**
- Q05.3** **Insertion of osmotic dilator into cervix**
Excludes: Insertion of osmotic dilator into cervix for induction of labour (R15.2)
Note: Use a subsidiary code to identify gestational age (Y95)
- Q57.2** **Sacrospinous fixation of uterus**
Includes: Sacrospinous fixation of cervix uteri
- Q57.3** **Plication of mesh previously inserted for suspension of uterus**
Includes: Plication of mesh previously inserted for suspension of cervix uteri

Q57.4 Plication of uterosacral ligament**Chapter R FEMALE GENITAL TRACT ASSOCIATED WITH PREGNANCY, CHILDBIRTH AND PUERPERIUM****R15.2 Mechanical induction of labour**

*Includes: Induction of labour using osmotic dilator
Induction of labour using balloon dilator*

Chapter S SKIN**CHAPTER S
SKIN****(CODES S01-S70)**

Note: Codes from this chapter are not to be used as primary codes for the following skin sites (or their extended categories):

SKIN SITE	CHAPTER	CODE
NIPPLE AND AREOLA	B	B35 B36
EYEBROW	C	C10
LIP	F	F01-F06

and for skin of the following sites (and their extended categories):

SITE	CHAPTER	CODE
CANTHUS	C	C11
EYELID	C	C12 C17 C19 C22

Includes: Prepuce	N	N30
VULVA	P	P05-P09
FEMALE PERINEUM	P	P11-P13
UMBILICUS	T	T29
ABDOMINAL WALL	T	T32

S06.5 Excision of lesion of skin of head or neck NEC

Includes: Wide excision of lesion of skin of head or neck NEC

S06.9 Unspecified other excision of lesion of skin

Includes: Wide excision of lesion of skin NEC

Chapter T SOFT TISSUE**T05.5 Open biopsy of lesion of chest wall**

Includes: Open biopsy of chest wall

T05.6 Percutaneous biopsy of lesion of chest wall

*Includes: Percutaneous biopsy of chest wall
Biopsy of lesion of chest wall NEC
Biopsy of chest wall NEC*

T41.3 Freeing of adhesions of peritoneum NEC

*Includes: Freeing of adhesions of mesentery
Freeing of adhesions of bowel
Division of adhesions of peritoneum NEC
Division of adhesions of mesentery NEC*

~~Division of adhesions of bowel NEC~~
~~Division of limited adhesions of bowel~~
~~Freeing of limited adhesions of peritoneum~~
~~Abdomen~~
~~Bowel~~
~~Mesentery~~
~~Omentum~~

~~Excludes: Endoscopic division of adhesions of peritoneum (T42.3)~~
~~Freeing of extensive adhesions of peritoneum (T41.5)~~

T41.5 Freeing of extensive adhesions of peritoneum

Includes: ~~Freeing of extensive adhesions of mesentery~~
~~Freeing of extensive adhesions of bowel~~
~~Division of extensive adhesions of peritoneum NEC~~
~~Division of extensive adhesions of mesentery NEC~~
~~Division of extensive adhesions of bowel~~
~~Abdomen~~
~~Bowel~~
~~Mesentery~~
~~Omentum~~

Excludes: ~~Division of limited adhesions of bowel (T41.3)~~
~~Endoscopic division of adhesions of peritoneum (T42.3)~~

T42.3 Endoscopic division of adhesions of peritoneum

Includes: ~~Endoscopic division of adhesions of mesentery~~
~~Endoscopic division of adhesions of bowel~~
~~Abdomen~~
~~Bowel~~
~~Mesentery~~
~~Omentum~~

Excludes: ~~Open freeing of adhesions of peritoneum (T41.3, T41.5)~~

T45 Image controlled operations on abdominal cavity

Includes: ~~Pelvic cavity~~

T45.5 Image controlled insertion of biodegradable spacer into perirectal space

Includes: ~~Image controlled injection of biodegradable spacer into perirectal space~~
~~Image controlled insertion of biodegradable balloon spacer into perirectal space~~

T66 Other primary repair of tendon

Includes: ~~Repair of tendon NEC~~

Note: Principal T67

T66.1 Primary repair of multiple tendons HFQ

T66.8 Other specified other primary repair of tendon

T66.9 Unspecified other primary repair of tendon

T67 Primary repair of tendon

Note: Principal category, extended at T66

T67.7 Primary repair of tendon to bone using fixation

Includes: ~~Primary repair of tendon to bone using anchor~~

T68 Secondary repair of tendon

Note: Principal category, extended at T73

<u>T68.7</u>	<u>Secondary repair of tendon to bone using fixation</u> <i>Includes: <u>Secondary repair of tendon to bone using anchor</u></i>
<u>T72.5</u>	<u>Insertion of spacer into sheath of tendon</u>
<u>T73</u>	<u>Other secondary repair of tendon</u> <i>Note: <u>Principal T68</u></i>
<u>T73.1</u>	<u>Secondary repair of multiple tendons HFQ</u>

<u>T82.1</u>	<u>Revision of repair of tendon</u>
<u>T82.8</u>	<u>Other specified operations on tendon</u>
<u>T82.9</u>	<u>Unspecified operations on tendon</u>

Chapter U DIAGNOSTIC IMAGING, TESTING AND REHABILITATION

<u>U17.7</u>	<u>Wireless capsule endoscopy of digestive tract</u> <i>Includes: <u>Capsule endoscopy</u></i>
<u>U35.5</u>	<u>Computed tomography angiography NEC</u> <i>Includes: <u>Computed tomography venography</u><u>Computed tomography venography NEC</u></i>

U50.6 **Delivery of rehabilitation for joint instability**
Excludes: When associated with joint replacement (U50.3)

Chapter V BONES AND JOINTS OF SKULL AND SPINE

V10.4 **Low level osteotomy of maxilla**
Note: Use an additional code when associated with surgically assisted expansion of palate using orthodontic appliance (F32.7)

V21.1 **Meniscectomy of temporomandibular joint**
Includes: Discectomy of temporomandibular joint

V44.4 **Vertebroplasty of fracture of spine NEC**
Excludes: Vertebroplasty with augmentation of fracture of spine using intravertebral implant (V44.6)

V44.6 **Augmentation vertebroplasty of fracture of spine using intravertebral implant**
Includes: Insertion of intravertebral implant with cement for fracture of spine

V46.6 **Fixation of fracture of spine using screw**

Chapter W OTHER BONES AND JOINTS

W27.5 **Temporary fixation of epiphysis**
Includes: Hemiepiphysiodesis

W27.6 **Attention to fixation of epiphysis**

W27.7 **Removal of fixation from epiphysis NEC**

W28 **Other internal fixation of bone**
Note: Principal category, extended at O49

W28.1 **Application of internal fixation to bone NEC**
Excludes: Insertion of intramedullary fixation of bone NEC (W28.6)

W28.3 **Removal of internal fixation from bone NEC**
Excludes: Removal of intramedullary fixation from bone (O49.1)

W28.5 **Insertion of telescopic intramedullary fixation of bone**
Includes: Insertion of intramedullary growing rod

W28.6 **Insertion of intramedullary fixation of bone NEC**
Excludes: Intramedullary fixation for fracture of bone (W19, W23.1, W24)

W28.7 **Attention to intramedullary fixation of bone NEC**

W58.3 **Osteochondroplasty of hip**

W70 **Open operations on semilunar cartilagemeniscus of knee joint**
*Includes: Operations on semilunar cartilage NEC
 Operations on meniscus of knee joint NEC*

W70.1 **Open total excision of semilunar cartilagemeniscus of knee joint**

W70.2 **Open excision of semilunar cartilagemeniscus of knee joint NEC**
*Includes: Open excision of lesion of semilunar cartilage
 Open excision of lesion of meniscus of knee joint*

W70.3 **Open repair of semilunar cartilagemeniscus of knee joint**

W70.4 **Open total replacement of meniscus of knee joint**

<u>W70.5</u>	<u>Open partial replacement of meniscus of knee joint</u>
<u>W70.8</u>	<u>Other specified open operations on semilunar cartilage</u> <u>meniscus of knee joint</u>
<u>W70.9</u>	<u>Unspecified open operations on semilunar cartilage</u> <u>meniscus of knee joint</u>
<u>W73.5</u>	<u>Primary prosthetic reinforcement of extra-articular ligament NEC</u>
<u>W73.6</u>	<u>Prosthetic reinforcement of extra-articular ligament NEC</u>
<u>W74.2</u>	<u>Reconstruction of intra-articular ligament NEC</u> <i>Excludes: Reconstruction of intra-articular ligament for stabilisation of joint (O27.5)</i>
<u>W82</u>	<u>Therapeutic endoscopic operations on semilunar cartilage</u> <u>meniscus of knee joint</u>
<u>W82.1</u>	<u>Endoscopic total excision of semilunar cartilage</u> <u>meniscus of knee joint</u>
<u>W82.2</u>	<u>Endoscopic resection of semilunar cartilage</u> <u>meniscus of knee joint</u>
<u>W82.3</u>	<u>Endoscopic repair of semilunar cartilage</u> <u>meniscus of knee joint</u>
<u>W82.4</u>	<u>Endoscopic total replacement of meniscus of knee joint</u>
<u>W82.5</u>	<u>Endoscopic partial replacement of meniscus of knee joint</u>
<u>W82.8</u>	<u>Other specified therapeutic endoscopic operations on semilunar cartilage</u> <u>meniscus of knee joint</u>
<u>W82.9</u>	<u>Unspecified therapeutic endoscopic operations on semilunar cartilage</u> <u>meniscus of knee joint</u>
<u>W84.7</u>	<u>Endoscopic repair of superior labrum</u> <u>glenoid labrum</u> anterior to posterior tear
<u>W93.4</u>	<u>Revision of one component of hybrid prosthetic replacement of hip joint using cemented acetabular component</u> <i>Note: Use a subsidiary site code to identify the component that has been revised (Z75.6, Z76.1)</i>
<u>W94.4</u>	<u>Revision of one component of hybrid prosthetic replacement of hip joint using cemented femoral component</u> <i>Note: Use a subsidiary site code to identify the component that has been revised (Z75.6, Z76.1)</i>
<u>W95.5</u>	<u>Revision of one component of hybrid prosthetic replacement of hip joint using cement NEC</u> <i>Note: Use a subsidiary site code to identify the component that has been revised (Z75.6, Z76.1)</i>
<u>O06.4</u>	<u>Revision of one component of hybrid prosthetic replacement of shoulder joint using cemented humeral component</u> <i>Note: Use a subsidiary site code to identify the component that has been revised (Z68.4, Z69.1)</i>
<u>O07.4</u>	<u>Revision of one component of hybrid prosthetic replacement of shoulder joint using cemented glenoid component</u> <i>Note: Use a subsidiary site code to identify the component that has been revised (Z68.4, Z69.1)</i>

- O08.5** **Revision of one component of hybrid prosthetic replacement of shoulder joint using cement NEC**
Note: Use a subsidiary site code to identify the component that has been revised (Z68.4, Z69.1)
- O18.1** **Primary hybrid prosthetic replacement of knee joint using cement**
Note: Use a subsidiary site code to identify cemented component (Z76.5, Z77.1)
- O18.5** **Revision of cemented component of hybrid prosthetic replacement of knee joint**
Note: Use a subsidiary site code to identify the component that has been revised (Z76.5, Z77.1)
- O18.6** **Revision of uncemented component of hybrid prosthetic replacement of knee joint**
Note: Use a subsidiary site code to identify the component that has been revised (Z76.5, Z77.1)
- O27.5** **Intra-articular ligament reconstruction for stabilisation of joint**
- O40** **Reverse polarity hybrid prosthetic replacement of shoulder joint using cement**
Note: Use a subsidiary site code to identify cemented component (Z68.4, Z69.1)
- O40.1** **Primary reverse polarity hybrid prosthetic replacement of shoulder joint using cement**
Note: Use a subsidiary site code to identify cemented component (Z68.4, Z69.1)
- O40.5** **Revision of cemented component of hybrid reverse polarity prosthetic replacement of shoulder joint**
Note: Use a subsidiary site code to identify the component that has been revised (Z68.4, Z69.1)
- O40.6** **Revision of uncemented component of hybrid reverse polarity prosthetic replacement of shoulder joint**
Note: Use a subsidiary site code to identify the component that has been revised (Z68.4, Z69.1)
- O41** **Operations on cartilage of joint**
Excludes: Open operations on meniscus of knee joint (W70)
Therapeutic endoscopic operations on meniscus of knee joint (W82)
Therapeutic endoscopic operations on other articular cartilage (W83)
Other therapeutic endoscopic operations on other articular cartilage (W89)
- O41.1** **Reconstruction of acetabular labrum**
- O41.2** **Repair of acetabular labrum**
- O41.3** **Debridement of acetabular labrum**
Excludes: When associated with reconstruction of acetabular labrum (O41.1) or repair of acetabular labrum (O41.2)
- O41.8** **Other specified operations on cartilage of joint**
- O41.9** **Unspecified operations on cartilage of joint**

- O49** **Internal fixation of bone**
Includes: Internal fixator of bone NEC
Note: Principal W28
- O49.1** **Removal of intramedullary fixation from bone**
- O49.8** **Other specified internal fixation of bone**
- O49.9** **Unspecified internal fixation of bone**
- O51** **Prosthetic replacement of wrist joint**
Excludes: Prosthetic interposition arthroplasty of wrist joint (W55)
- O51.1** **Primary total prosthetic replacement of wrist joint**
- O51.2** **Conversion to total prosthetic replacement of wrist joint**
Note: Use a subsidiary conversion from code as necessary
- O51.3** **Revision of total prosthetic replacement of wrist joint**
- O51.4** **Attention to total prosthetic replacement of wrist joint**
- O51.5** **Primary prosthetic replacement of articulation of bone of wrist**
Includes: Prosthetic hemiarthroplasty of articulation of bone of wrist
Note: Use a subsidiary site code to identify resurfaced bone (Z70.5, Z72.4)
- O51.6** **Revision of prosthetic replacement of articulation of bone of wrist**
Includes: Revision of prosthetic hemiarthroplasty of articulation of bone of wrist
Note: Use a subsidiary site code to identify resurfaced bone revised (Z70.5, Z72.4)
- O51.8** **Other specified prosthetic replacement of wrist joint**
- O51.9** **Unspecified prosthetic replacement of wrist joint**
- O51.0** **Conversion from previous total prosthetic replacement of wrist joint**

Chapter X MISCELLANEOUS OPERATIONS

- X22.6** **Closed reduction of congenital deformity of hip**
- X52.2** **High flow nasal oxygen therapy**
Includes: High flow nasal cannula oxygen therapy
Excludes: High flow continuous positive airway pressure (E85.6)
Note: Use a supplementary code for concurrent prone positioning of the patient during high flow nasal oxygen therapy (O48.1)

Chapter Y SUBSIDIARY CLASSIFICATION OF METHODS OF OPERATION

- Y17.3** **Lithotripsy of lesion of organ NOC**
Excludes: Electrohydraulic lithotripsy of lesion of organ NOC (Y17.6)
- Y17.6** **Electrohydraulic lithotripsy of lesion of organ NOC**
- Y36.5** **Introduction of biological scaffold into organ NOC**
Includes: Introduction of biological conduit into organ NOC
- Y36.6** **Introduction of synthetic scaffold into organ NOC**
Includes: Introduction of synthetic conduit into organ NOC
- Y36.7** **Introduction of other scaffold into organ NOC**
Includes: Introduction of other conduit into organ NOC
- Y45.3** **Approach to organ under seed marker guided control**
- Y54.4** **Harvest of multiple nerves**

Y59.3	Harvest of <u>ulnar</u> artery flap of skin and fascia
Y67.3	<u>Harvest of osteochondral tissue</u> <i>Includes: <u>Harvest of cartilage and bone</u></i>
Y69.5	<u>Harvest of buccal mucosa</u>
Y71	Late operations NOC <i>Note: <u>Principal category, extended at Y72</u></i>
Y71.4	Failed minimal access approach converted to open <u>NEC</u>
Y72	<u>Other late operations NOC</u> <i>Note: <u>Principal Y71</u></i>
Y72.1	<u>Failed robotic minimal access approach converted to open</u> <i>Includes: <u>Failed robotic assisted minimal access approach converted to open</u></i>
Y72.2	<u>Failed video-assisted minimal access approach converted to open</u>
Y72.8	<u>Other specified other late operations NOC</u>
Y72.9	<u>Unspecified other late operations NOC</u>
Y73	Facilitating operations NOC <i>Note: <u>Principal category, extended at O48</u></i>
Y77	<u>Other approach to organ</u>
Y77.1	<u>Approach to hip joint using surgical dislocation of hip joint</u> <i>Includes: <u>Approach to hip joint using osteotomy of the trochanter</u></i> <i><u>Approach to hip joint using trochanteric flip</u></i> <i>Note: <u>Do not code fixation of trochanter separately</u></i>
Y77.2	<u>Approach to organ through groin</u>
Y77.8	<u>Other specified other approach to organ</u>
Y77.9	<u>Unspecified other approach to organ</u>
Y84.3	<u>Intravenous sedation</u>
Y84.4	<u>Inhalation sedation</u>
O48	<u>Other facilitating operations NOC</u> <i>Note: <u>Principal Y73</u></i>
O48.1	<u>Prone positioning of patient</u> <i>Note: <u>Use as a supplementary code when associated with ventilation support (E85) or high flow nasal oxygen therapy (X52.2)</u></i>
O48.8	<u>Other specified other facilitating operations NOC</u>
O48.9	<u>Unspecified other facilitating operations NOC</u>

Chapter Z SUBSIDIARY CLASSIFICATION OF SITES OF OPERATION

Z01	Tissue of brain <i>Note: <u>Principal category, extended at O46</u></i>
Z01.6	Tissue of brain stem <u>NEC</u>
Z03.2	Optic nerve (ii) <i>Includes: <u>Optic chiasm</u></i>
