## Background:

[DCB0090: Health and Social Care Organisation Reference Data](#) describes organisations within the NHS. The Health and Care Bill (2022) makes significant changes to organisational hierarchy and naming.

The NHS Digital website at: [Integrated Care Boards](#) provides information regarding the Health and Care Bill.

To support the Information Standard, this Change Request makes the following changes to the NHS Data Model and Dictionary to reflect the changes:

- Creates new definitions for:
  - Integrated Care Board
  - Integrated Care Partnership
  - Sub Integrated Care Board Location
- Updates the existing definitions:
  - Integrated Care System
  - Sustainability and Transformation Partnership
  - Clinical Commissioning Group
  - NHS England
- Updates the NHS Data Model and Dictionary items that reference the affected items
- Retires the following Supporting Information pages as they are no longer required following the implementation of [DCB0090: Health and Social Care Organisation Reference Data](#).
  - Organisation Coding Frames
  - Organisation Site Coding Frames.

A short demonstration is available which describes "How to Read an NHS Data Model and Dictionary Change Request", in an easy to understand screen capture including a voice over and readable captions. This demonstration can be viewed at: [https://datadictionary.nhs.uk/elearning/change\\_request/index.html](https://datadictionary.nhs.uk/elearning/change_request/index.html).

Note: if the web page does not open, please copy the link and paste into the web browser. A guide to how to use the demonstration can be found at: [Demonstrations](#).

## AGGREGATE CONTRACT MONITORING DATA SET OVERVIEW

---

Change to Supporting Information: Changed Description

### Introduction

The [Aggregate Contract Monitoring Data Set](#) is to enable the interchange, in a uniform and consistent format, of monthly aggregate [Contract Monitoring](#) data between all purchasers and [Health Care Providers](#). This will ensure that [Contract Monitoring](#) and reporting is consistent, comparable and fit for purpose across all commissioning [ORGANISATIONS](#).

Submission of the [Aggregate Contract Monitoring Data Set](#) is a contractual requirement and a recognised monthly reconciliation statement. It demonstrates the aggregated cost of commissioned clinical care provided to [PATIENTS](#) as well as financial adjustments not attributed directly to clinical care. The totality of expenditure documented in the [Aggregate Contract Monitoring Data Set](#) must be equivalent to the monetary value of the invoice raised by the [Health Care Provider](#) and presented to the commissioner.

### Scope

The scope of the [Aggregate Contract Monitoring Data Set](#) is all NHS-funded clinical care provided (including drugs and [MEDICAL DEVICES](#) not covered by the [National Tariff Payment System](#)) provided to [PATIENTS](#) as well as financial adjustments not attributed directly to clinical care, for all commissioners. This covers:

- All NHS and [Independent Sector Healthcare Providers](#), secondary [Health Care Providers](#), (acute, mental health and community services), but not primary care, from whom the NHS commissions healthcare.
- ~~All NHS commissioners ([Clinical Commissioning Groups](#) or their equivalents and [NHS England and NHS Improvement](#))~~
- All NHS commissioners ([Integrated Care Boards](#) or their equivalents and [NHS England](#))

The [Aggregate Contract Monitoring Data Set](#) is an aggregation of the three separate patient-level [Contract Monitoring](#) data set flows:

- [Patient Level Contract Monitoring \(PLCM\)](#)
- [Drugs Patient Level Contract Monitoring \(DrPLCM\)](#)

- [Devices Patient Level Contract Monitoring \(DePLCM\)](#).

## Submission

The [Aggregate Contract Monitoring Data Set](#) is submitted on a monthly basis to the respective [Data Services for Commissioners Regional Office \(DSCRO\)](#) as nominated by each commissioning function in line with the dates documented in the data submission timetable within Schedule 6 of the [NHS Standard Contract](#).

The completed monthly [Aggregate Contract Monitoring Data Set](#) should be transmitted using the [NHS Digital Data Landing Portal \(DLP\)](#).

For further information on the [Aggregate Contract Monitoring Data Set](#), see the [NHS England and NHS Improvement](#) website at: [Directly commissioned services reporting requirements](#). For further information on the [Aggregate Contract Monitoring Data Set](#), see the [NHS England](#) website at: [Directly commissioned services reporting requirements](#).

## Mandation

The Mandation column indicates the recommendation for the inclusion of data.

- M = Mandatory: this data element is mandatory and the technical process (e.g. submission of the data set, production of output etc) cannot be completed without this data element being present
- R = Required: NHS business processes cannot be delivered without this data element
- O = Optional: the inclusion of this data element is optional as required for local purposes.

## COMMISSIONING DATA SET ADDRESSING GRID

---

Change to Supporting Information: Changed Description

This page has been updated in [DDCN 1645 \(Specialised Commissioning: Removal of Default Code YDD82\)](#) to remove the National Commissioning Group, as NHS England became responsible for commissioning all specialised services in April 2013.

The page will be updated as part of an Information Standard to reflect the current arrangements for the Commissioning Data Sets.

Note that the [Commissioning Data Set Addressing Grid](#) is only applicable for [Commissioning Data Set](#) version 6-2, as [CDS PRIME RECIPIENT IDENTITY](#) and [CDS COPY RECIPIENT IDENTITY](#) have been replaced with [ORGANISATION IDENTIFIER \(CDS RECIPIENT\)](#) in [Commissioning Data Set](#) version 6-3.

The [Commissioning Data Set Addressing Grid](#) below illustrates which [ORGANISATION CODES](#) should be used to populate the [CDS PRIME RECIPIENT IDENTITY](#) and [CDS COPY](#)

[RECIPIENT IDENTITY](#) for each [PATIENT](#) / [NHS SERVICE AGREEMENT](#). See the specific [ORGANISATION CODE](#) Data Elements for further information on their usage and [Organisation Data Service Default Codes](#) etc.

[Health Care Providers](#) need to specify the [ORGANISATIONS](#) that have a right to the commissioning data set data as a [CDS PRIME RECIPIENT IDENTITY](#) or [CDS COPY RECIPIENT IDENTITY](#). This is so that they can access the data once it has been stored in the [Secondary Uses Service](#).

Please note that payment via the [National Tariff Payment System](#) is not determined by the [CDS PRIME RECIPIENT IDENTITY](#) or [CDS COPY RECIPIENT IDENTITY](#).

**Important Notes:**

- The [CDS PRIME RECIPIENT IDENTITY](#) must be allocated on the first creation and submission of a [CDS Type](#) for a [PATIENT](#) and **must not change even if the [ADDRESS](#) or [ORGANISATION CODE \(RESIDENCE RESPONSIBILITY\)](#) of the [PATIENT](#) changes during the lifetime of the Commissioning Data Set record** otherwise duplicate Commissioning Data Set data may be lodged in the [Secondary Uses Service](#) database. See the supporting information in [Commissioning Data Set Submission Protocol](#) for a detailed explanation.
- Note that if two recipients are identical for example, the [ORGANISATION CODE \(RESIDENCE RESPONSIBILITY\)](#) may be the same as the [ORGANISATION CODE \(CODE OF COMMISSIONER\)](#), only one entry for that [ORGANISATION](#) should be made for that recipient.
- Specialised service [ACTIVITY](#) commissioned by a regional Specialised Commissioning Group should include their [ORGANISATION CODE](#) as a [CDS COPY RECIPIENT IDENTITY](#). [ACTIVITY](#) commissioned by a shared service [ORGANISATION](#) or other consortium of [Primary Care Trusts](#), should similarly include the [ORGANISATION CODE](#) of the shared service or the lead [Primary Care Trust](#), if this does not already appear as a [CDS COPY RECIPIENT IDENTITY](#) or [CDS PRIME RECIPIENT IDENTITY](#).

## LOCAL AUTHORITY

---

Change to Supporting Information: Changed Description

A [Local Authority](#) is an [ORGANISATION](#).

The structure of local government varies from area to area in England. In some areas there are two layers or tiers:

In other areas there is just a single tier made up of a '[Unitary Authority](#)'. [Unitary Authorities](#) may have adopted any of these names. A [Local Authority](#) is responsible for a range of services for both individuals and business which include:

- Health Services
- Social Services
- Education

**Notes:**

- Codes for Executive Agency, Executive Agency Programme, Executive Agency Site and Executive Agency Programme Department do not easily fit into the coding frames as shown above and are therefore not included. This is due to their unusual structure in that there are more hierarchical 'tiers' than with other organisations.

*Executive Agency and Executive Agency Programme are both considered Organisation level entities, although each Programme does have a relationship to an Executive Agency. Executive Agency codes are three characters long. Executive Agency Programme codes are six, and their first three characters are the same as the Executive Agency they are associated to.*

*Department codes of eight characters long can then be allocated underneath a Programme code (sharing the first six characters). Executive Agency Site codes of five characters long can be allocated under an Executive Agency code (and share the first three characters).*

- A-9 indicates that characters A-Z and 0-9 are valid: except B, I, O, S, U and Z (to avoid ambiguity). This applies to all [ORGANISATION CODES](#) in the Coding Format Table above except [Independent Sector Healthcare Providers \(ISHP\)](#).

Access to this version can be obtained by emailing [information.standards@nhs.net](mailto:information.standards@nhs.net) with "NHS Data Model and Dictionary - Archive Request" in the email subject line.

**PATIENT LEVEL CONTRACT MONITORING DATA SET OVERVIEW**

Change to Supporting Information: Changed Description

**Introduction**

The purpose of the [Patient Level Contract Monitoring Data Set \(PLCM\)](#) is to enable the interchange, in a uniform format, of monthly [PATIENT](#) level [Contract Monitoring](#) data between all purchasers and [Health Care Providers](#). This will ensure that [Contract Monitoring](#) and reporting is consistent, comparable and fit for purpose across all commissioning [ORGANISATIONS](#).

The [Patient Level Contract Monitoring Data Set](#) is a [PATIENT](#) level report containing [PATIENT](#) identifiers. Its purpose is to substantiate and provide detail to the information contained within the [Aggregate Contract Monitoring Data Set \(ACM\)](#). It will contain details of [PATIENT](#) level clinical activities that are not found in flows of standard [Commissioning Data Sets](#) (CDS) submitted to the [Secondary Uses Service](#).

## Scope

The scope of the [Patient Level Contract Monitoring Data Set](#) Information Standard is all NHS-funded acute and community clinical care (excluding drugs and [MEDICAL DEVICES](#) not covered by the [National Tariff Payment System](#)) provided to [PATIENTS](#), as well as financial adjustments not attributed directly to clinical care, for all commissioners.

This covers:

- All acute and community NHS and secondary care [Independent Sector Healthcare Providers](#), but not primary care, from whom the NHS commissions healthcare
- ~~All NHS commissioners ([Clinical Commissioning Groups \(CCG\)](#) or their equivalents and [NHS England and NHS Improvement](#)).~~
- All NHS commissioners ([Integrated Care Boards](#) or their equivalents and [NHS England](#)).

Note that the totality of expenditure in the [Patient Level Contract Monitoring Data Set](#) must be equivalent to the monetary value (excluding drugs and [MEDICAL DEVICES](#) not covered by the [National Tariff Payment System](#)) shown in the [Aggregate Contract Monitoring Data Set](#).

## Submission

The [Patient Level Contract Monitoring Data Set](#) is submitted on a monthly basis to the respective [Data Services for Commissioners Regional Office \(DSCRO\)](#) as nominated by each commissioning function in line with the dates documented in the data submission timetable within Schedule 6 of the [NHS Standard Contract](#).

The completed monthly [Patient Level Contract Monitoring Data Set](#) should be transmitted using the [NHS Digital Data Landing Portal \(DLP\)](#).

~~For further information on the [Patient Level Contract Monitoring Data Set](#), see the [NHS England and NHS Improvement](#) website at: [Directly commissioned services reporting requirements](#).~~ For further information on the [Patient Level Contract Monitoring Data Set](#), see the [NHS England](#) website at: [Directly commissioned services reporting requirements](#).

## Mandation

The Mandation column indicates the recommendation for the inclusion of data.

- M = Mandatory: this data element is mandatory and the technical process (e.g. submission of the data set, production of output etc) cannot be completed without this data element being present
- R = Required: NHS business processes cannot be delivered without this data element
- O = Optional: the inclusion of this data element is optional as required for local purposes.

## Data Set Constraints

## SEXUAL AND REPRODUCTIVE HEALTH ACTIVITY DATA SET OVERVIEW

---

Change to Supporting Information: Changed Description

### Introduction

The [Sexual and Reproductive Health Activity Data Set](#) covers [PATIENT](#) contact with the [Sexual and Reproductive Health Services](#) whether in a clinic setting, in the [PATIENT](#)'s home or at an alternative location.

[Public Health England](#) requires the mandatory collection of information on the [SERVICES](#) provided by [Sexual and Reproductive Health Services](#).

The [Sexual and Reproductive Health Activity Data Set](#) provides essential data to:

- Ensure a relevant collection of electronic data to support local service development
- Allow monitoring of key policy initiatives and indicators such as: The Public Health Outcome Framework Indicator on under 18 conceptions; increasing access to all methods of contraception, including Long Acting Reversible Contraceptions (LARC) methods and emergency contraception for women of all ages and their partners; reducing teenage conceptions; reducing the rate of unintended pregnancies and modernisation of [Sexual and Reproductive Health Services](#)
- Provide appropriate definitions and guidance material to enable a standardised data set from [Sexual and Reproductive Health Services](#)
- Support commissioners in understanding which population groups are accessing [Sexual and Reproductive Health Services](#) and which [SERVICES](#) they are receiving, including the LARC methods as recommended by [National Institute for Health and Care Excellence \(NICE\)](#), and therefore allowing for long-term commissioning of [SERVICES](#)
- Develop, over time, indicators of quality and outcome in [SERVICE](#) delivery (especially in comparative reports). For example the removal and length of use for LARC devices, provision of emergency [CONTRACEPTION](#), the provision of [CONTRACEPTION](#) post abortion and referrals to secondary care, the comparison of attendance rates for selected care and the diversity of young [PERSON](#) provision by [Sexual and Reproductive Health Services](#) including social referrals
- Aid the development of a benchmark measure to indicate how [SERVICES](#) compare in delivering the most appropriate and effective care to [PATIENTS](#)
- Reflect current data collection practices and requirements at [Sexual and Reproductive Health Services](#).

## Data Extract Specification

**Description:** The [Sexual and Reproductive Health Activity Data Set](#) return includes [PATIENT ACTIVITY](#) provided by [Sexual and Reproductive Health Services](#) in clinics and non-clinic venues (e.g. outreach facilities or domiciliary visits). ~~Also included are [Sexual and Reproductive Health Services](#) provided by non - NHS clinics funded wholly or in part by [Local Authorities](#) and/or [Clinical Commissioning Groups](#) (e.g. Brook). Also included are [Sexual and Reproductive Health Services](#) provided by non - NHS clinics funded wholly or in part by [Local Authorities](#) and/or [Integrated Care Boards](#) (e.g. Brook).~~ It does not include [SERVICES](#) provided by [CONSULTANTS](#) in Outpatient Clinics or those provided by [GENERAL MEDICAL PRACTITIONERS](#).

~~Data collected will be used by the NHS, [Care Quality Commission](#), [Local Authorities](#) [Clinical Commissioning Groups](#), [Public Health England](#) and other appropriate [ORGANISATIONS](#) to support the monitoring of the National Strategies on [Sexual and Reproductive Health Services](#), service provision, benchmarking and development of commissioning.~~ Data collected will be used by the NHS, [Care Quality Commission](#), [Local Authorities](#), [Integrated Care Boards](#), [UK Health Security Agency](#) and other appropriate [ORGANISATIONS](#) to support the monitoring of the National Strategies on [Sexual and Reproductive Health Services](#), service provision, benchmarking and development of commissioning.

**Time period:** The extract will cover one financial year.

**Frequency:** Extracts run annually, six weeks after the end of the financial year.

**Format:** Data returned should be formatted to a comma separated variable (CSV) or in a MS Excel file. The data variables should be transmitted in the order specified in the [Sexual and Reproductive Health Activity Data Set](#).

**Transmission:** Data is submitted via an on-line process to [NHS Digital](#).

For further information on the [Sexual and Reproductive Health Activity Data Set](#) see the [NHS Digital](#) website at: [Sexual and Reproductive Health Activity Data Set \(SRHAD\) Collection](#).

## Mandation

The Mandation column indicates the recommendation for the inclusion of data.

- M = Mandatory: this data element is mandatory and the technical process (e.g. submission of the data set, production of output etc) cannot be completed without this data element being present
- R = Required: NHS business processes cannot be delivered without this data element.

## SPECIALISED COMMISSIONING HUB

---

Change to Supporting Information: Changed Description

A [Specialised Commissioning Hub](#) is an [ORGANISATION](#). A [Specialised Commissioning Hub](#) is an artefact in the [Organisation Data Service \(ODS\)](#) data used as a proxy for the standard commissioning [ORGANISATIONS](#).

A [Specialised Commissioning Hub](#) is a part of [NHS England and NHS Improvement](#). These codes enable IT systems and financial flows to identify [ACTIVITY](#) commissioned nationally or commissioned in some other way that is outside the standard commissioning model in England.

[Specialised Commissioning Hubs](#) are responsible for leading the commissioning of specialised services.

A smaller number of the [Specialised Commissioning Hubs](#) also carry out the direct commissioning of military and prison health services.

## SUB INTEGRATED CARE BOARD LOCATION

---

Change to Supporting Information: New Supporting Information

A [Sub Integrated Care Board Location](#) is a sub-division of an [Integrated Care Board's](#) total [GEOGRAPHIC AREA](#), required for data disaggregation purposes and to support the [ELECTRONIC HEALTH RECORD](#).

[Sub Integrated Care Board Locations](#) are reference data artefacts and do not represent any legally defined organisational entity in their own right; rather they are intended to be used as proxies for the [Integrated Care Board](#) of which they form a component part.

[Sub Integrated Care Board Locations](#) are intended as a temporary measure for a period of time to allow [Integrated Care System](#) legislation to be enacted, while minimising impacts on downstream systems and processes by allowing more time for the completion of planning and design activities.

Note: the [Organisation Data Service \(ODS\)](#) codes identifying [Clinical Commissioning Groups](#) at the point of their dissolution were retained, and their names changed to reflect their new status as [Sub Integrated Care Board Locations](#). Each [Sub Integrated Care Board Location](#) inherited the geographical boundary from the [Clinical Commissioning Group](#) they displaced, adjusted in line with any geographical boundary changes.
