

Corrigendum

Standard	DCB0011 Mental Health Services Data Set
Release	Amd 29/2020
Date of ISCE publication	8 April 2021
Date of this Corrigendum	7 January 2022

Background

The current release of DCB0011 Mental Health Services Data Set (MHSDS) was published on 8 April 2021.

A corrigendum was then published on 6 August 2021, detailing nine corrections to the data set.

Since then the need for a further minor correction to the data set has been identified. A summary is provided below.

Note that an updated Data Set Specification has been issued and should be read in conjunction with this Corrigendum.

Summary

In the MHS009 Care Plan Agreement table (MHS009CarePlanAgreement), the required status of the data items FAMILY INVOLVED IN CARE PLAN INDICATOR and FAMILY NOT INVOLVED IN CARE PLAN REASON has been changed from:

‘M’ (Mandatory - must be reported)
 to
 ‘R’ (Required - must be reported where applicable).

This correction has been made following feedback from stakeholders that the current mandatory status of the items is unfeasible (i.e. users had to complete the second data item, even if the first data item indicated that the family is involved in the care plan.)

More information

The controlled version of this Corrigendum is published alongside the current publication documents on the NHS Digital website:

<http://digital.nhs.uk/isce/publication/dcb0011>

Any questions about these changes should be sent to the developers of the Mental Health Services Data Set (MHSDS) at NHS Digital enquiries@nhsdigital.nhs.uk (quote ‘MHSDS’ in subject line)
